HOME SWEET HOME

Your home is your sanctuary. It’s the place where you and your family feel safe and comfortable. Safe. Protected. But it’s not true that you have one that feels like home. A home that’s completely safe. And that’s why we’re in business. We want your family to feel the same way about its home. That’s why we put so much time and effort into making sure your family is protected. And that’s why we put so much effort into making sure your family is protected.

Don’t worry, we’re the ones who have to replace the roof. We’re the ones who have to fix it. And we’re the ones who have to make sure it’s done right. And if it’s not done right, we have to do it again. And we have to do it again. And we have to do it again. And we have to do it again.

The way you choose to roof your home is an important decision. It’s not only one that you’ll be making for the next 20 years, it’s one that could be making or breaking your home. The way you choose to roof your home is an important decision.

Call your local Owens Corning® Preferred Contractor and learn about the Owens Corning® TruDefinition™ Duration® Designer Color Collection Shingles. They offer the same exceptional performance in seven unique colors you won’t find elsewhere.

by Owens Corning Roofing & Asphalt, LLC.
TruDefinition™ Duration® Shingles are specially formulated to provide greater contrast and dimension to any roof. The design features a unique blend of color and depth to enhance the natural beauty of the material. TruDefinition Duration® Shingles offer a truly unique and dramatic effect. This exclusive combination of color and depth is what makes TruDefinition Duration® Shingles like no other.

TruDefinition Duration® Shingles are available in popular colors with bold, lively contrast and complementing shadow lines for greater dimension. They feature a Limited Lifetime Warranty*, 130-MPH Wind Resistance Limited Warranty* and an Algae Resistance Limited Warranty. Beyond the outstanding curb appeal and impressive warranty coverage, they also come with the advanced performance of patented SureNail® Technology.

TruDefinition™ DURATION® SHINGLES with SureNail® Technology

The SureNail® Difference — A technological breakthrough in roofing.

The innovative features of Owens Corning™ TruDefinition Duration® Shingles with patented SureNail® Technology offer the following:

Breakthrough Design. Featuring a single, engineered reinforced nailing strip to deliver consistent fastening during installation.

Triple Layer Protection™ — a unique “triple layer” of reinforced materials that offers maximum durability and excellent fastener holding power. 

Superior Adhesion. Our enhanced Tru-Bond® sealant grips tightly to the engineered fabric nailing strip on the shingle below.

Excellent Wind Resistance. The industry’s first asphalt roofing shingle engineered to deliver 130-MPH* wind warranty performance with only 4 nails. 33% fewer nails are required for maximum warranty protection, which can mean fewer deck penetrations.

Exceptional Nail Resistance. TruDefinition® Shingles are designed to deliver exceptional nail retention even in the most extreme conditions. 

Surfacing Adhesive Power. Specially formulated, wide adhesive bands help keep shingle layers laminated together.

Excellent Adhesive Power. Specially formulated, wide adhesive bands help keep shingle layers laminated together.

Enhanced Tru-Bond® Sealant. Superior sealant helps prevent separation of shingle layers.

Excellent Adhesive Power. Specially formulated, wide adhesive bands help keep shingle layers laminated together.

Exceptional Wind Resistance. The industry’s first asphalt roofing shingle engineered to deliver 130-MPH* wind warranty performance with only 4 nails.

Triple Layer Protection™ — a unique “triple layer” of reinforced materials that offers maximum durability and excellent fastener holding power.

Superior Adhesion. Our enhanced Tru-Bond® sealant grips tightly to the engineered fabric nailing strip on the shingle below.

Excellent Adhesive Power. Specially formulated, wide adhesive bands help keep shingle layers laminated together.

Excellent Wind Resistance. The industry’s first asphalt roofing shingle engineered to deliver 130-MPH* wind warranty performance with only 4 nails. 33% fewer nails are required for maximum warranty protection, which can mean fewer deck penetrations.

TruDefinition™ DURATION® Shingles are specially formulated to provide greater contrast and dimension to any roof. The unique granule shapes and sizes, combined with shadowing, create a truly 3-dimensional look with a Shingled-on-a-ridge appearance. TruDefinition DURATION Shingles offer a rich, unique and dimension effect. This fascinating combination of color and depth is what makes TruDefinition DURATION Shingles like no other.

TruDefinition DURATION Shingles are available in popular colors with bold, lively contrast and complementing shadow lines for greater dimension. They feature a Limited Lifetime Warranty, 130-MPH Wind Resistance Limited Warranty and an Algae Resistance Limited Warranty. Beyond the outstanding curb appeal and impressive warranty coverage, they also come with the advanced performance of patented SureNail® Technology.

The SureNail® Difference — A technological breakthrough in roofing.

The innovative features of Owens Corning™ TruDefinition Duration Shingles with patented SureNail Technology offer the following:

- **Breakthrough Design.** Featuring a tough, woven engineered reinforcing fabric to deliver consistent fastening during installation.
- **Triple Layer Protection.™** A unique “triple layer” of reinforcement occurs when the fabric overlays the common bond of the shingle laminate layers that offers excellent fastener holding power.
- **Superior Adhesion.** Our enhanced Tru-Bond® sealant grips tightly to the engineered fabric nailing strip on the shingle below.
- **Excellent Adhesive Power.** Specially formulated, wide adhesive bands help keep shingle layers laminated together.
- **Exceptional Wind Resistance.** The industry’s first asphalt roofing shingle engineered to deliver 130-MPH* wind warranty performance with only 4 nails. 33% fewer nails are required for maximum warranty protection, which can mean fewer deck penetrations.

The SureCore® Difference — A technological breakthrough in roofing.

SureCore® shingles feature a lightweight core, making them lighter and easier to install than traditional two-ply asphalt shingles. This lightness also reduces the total weight of a roof, so they are ideal for buildings with limited roof capacity.

- **Lighter Weight.** SureCore® shingles weigh 35% less than traditional two-ply asphalt shingles, which can reduce the overall weight of a roof by up to 30%.
- **Increased Energy Efficiency.** Because they are lighter, SureCore® shingles can help reduce energy costs by improving the overall energy efficiency of a building.
- **Simplified Installation.** SureCore® shingles are designed to be easier and faster to install than traditional two-ply asphalt shingles, making them a great choice for builders and contractors.

The SureFire™ Difference — A technological breakthrough in roofing.

SureFire® shingles feature a lightweight core that is designed to be more impact resistant than traditional two-ply asphalt shingles. This lightweight core helps to protect your roof from damage caused by hail, winds, and other severe weather conditions.

- **Impact Resistance.** SureFire® shingles are designed to be more impact resistant than traditional two-ply asphalt shingles, which can reduce the risk of damage caused by severe weather conditions.
- **Increased Durability.** Because they are more impact resistant, SureFire® shingles can help improve the overall durability of a roof, making it more resistant to damage caused by severe weather conditions.
- **Simplified Installation.** SureFire® shingles are designed to be easier and faster to install than traditional two-ply asphalt shingles, making them a great choice for builders and contractors.
TruDefinition™ Duration® Shingles are specially formulated to provide greater contrast and dimension to any roof. This is achieved through the use of multiple granule colors and shadowing. TruDefinition Duration® Shingles offer a truly unique and dramatic effect. The recirculation of color and depth is what makes TruDefinition Duration® Shingles like no other.

TruDefinition Duration® Shingles are available in popular colors with bold, lively contrast and complementing shadow lines for greater dimension. They feature a Limited Lifetime Warranty,‡‡ 130-MPH Wind Resistance Limited Warranty* and an Algae Resistance Limited Warranty.* Beyond the outstanding curb appeal and impressive warranty coverage, they also come with the advanced performance of patented SureNail® Technology.

TruDefinition™ Duration® Shingles with SureNail® Technology

The SureNail® Difference — A technological breakthrough in roofing.

The innovative features of Owens Corning™ TruDefinition Duration® Shingles with patented SureNail Technology offer the following:

Breakthrough Design. Featuring a striking, stronger, more uniform nailing area to help prevent fastener breakage during installation.

Triple Layer Protection™ — promotes “rain dance” of water beading off the tiles to move away from the grout lines. Silver Bond® (150-MPH Wind Warranty Limited Warranty) and an Algae Resistant (Limited Warranty) beyond the outstanding curb appeal and impressive warranty coverage.

SureNail® Reinforcing Woven Fabric Nailing Area

The SureNail® Difference — A technological breakthrough in roofing.

The innovative features of Owens Corning™ TruDefinition Duration® Shingles with patented SureNail Technology offer the following:

Breakthrough Design. Featuring a striking, stronger, more uniform nailing area to help prevent fastener breakage during installation.

Triple Layer Protection™ — promotes “rain dance” of water beading off the tiles to move away from the grout lines. Silver Bond® (150-MPH Wind Warranty Limited Warranty) and an Algae Resistant (Limited Warranty) beyond the outstanding curb appeal and impressive warranty coverage.

SureNail® Reinforcing Woven Fabric Nailing Area

Exceptional Wind Resistance. Designed to meet the only UL 1950 testing requirements at a 150-MPH rating and exceeds performance with only 10 nails, 33% fewer nails are required for warranty protection, which can mean fewer deck penetrations.

TruDefinition™ Duration® Shingles are available in popular colors with bold, lively contrast and complementing shadow lines for greater dimension. They feature a Limited Lifetime Warranty,‡‡ 130-MPH Wind Resistance Limited Warranty* and an Algae Resistance Limited Warranty.* Beyond the outstanding curb appeal and impressive warranty coverage, they also come with the advanced performance of patented SureNail® Technology.
TruDefinition™ DURATION® Shingles

TruDefinition DURATION® Shingles are specially formulated to provide greater contrast and dimension to any roof. With the industry’s broadest color selection and greater shadowing, TruDefinition DURATION® Shingles offer a bold contrast and dimension effect. The microscopically-needed color and depth is what makes TruDefinition DURATION® Shingles like no other.

TruDefinition DURATION® Shingles are available in popular colors with bold, lively contrast and complementing shadow lines for greater overall effect. Each color is designed to enhance the appearance of any roof. Beyond the outstanding curb appeal and impressive warranty coverage, they also come with the advanced performance of patented SureNail® Technology.

TruDefinition™ DURATION® Shingles with SureNail® Technology

The SureNail® Difference — A technological breakthrough in roofing.

The innovative features of Owens Corning™ TruDefinition Duration Shingles with patented SureNail® Technology offer the following:

Breakthrough Design. Featuring a striking, semi-rigid panel and patented shadow lines, these shingles are designed to transform your roof from ordinary to extraordinary. Oracal® (registered trademark of Oracal, Inc.)$$

Triple Layer Protection™†† — An innovative “triple layer” of reinforced materials offers superior wind resistance. The middle layer of the shingle laminate is bonded to the nailing strip using a specially engineered fastener. Superior Adhesion. Our patented SureBond® adhesive grips tightly to the engineered fabric nailing strip on the shingle below.

Superior Adhesion. Our enhanced Tru-Bond®‡ sealant grips tightly to the engineered fabric nailing strip on the shingle below.

Excellent Adhesive Power. Specially formulated, wide adhesive bands help keep shingle layers laminated together.

Exceptional Wind Resistance. The industry’s first asphalt roofing shingle engineered to deliver 130-MPH* wind warranty performance with only 4 nails. 33% fewer nails are required for maximum warranty protection, which can mean fewer deck penetrations.

Your home is your sanctuary. It’s the place where you go to feel safe and comfortable. Safe. Protected. But it’s not true that you have to live in a boring design. Taking care of your roof properly can help protect your family, keep your home safe, and increase your curb appeal. We have the technology and the materials to take care of your roof properly. Don’t worry about the leaks and cracks you might have noticed. We can help you fix them.

Don’t worry about the maintenance either. We have the right products to make sure your roof lasts for years to come. Our products are designed to withstand the elements and last. But we also have a warranty that ensures you’re covered in case anything goes wrong. We’re the leaders in the roofing industry, and we’re confident in our products. We want you to feel confident about choosing us. We want you to feel safe. We want you to feel protected.

To see how we can help you protect your roof, give us a call or visit our website. You can find more information about our products and services there. We’re here to help you every step of the way. We want you to feel confident about choosing us. We want you to feel safe. We want you to feel protected.
ENERGY STAR IS FOR ROOFS TOO

As indicated by the ENERGY STAR® label on your roof, Owens Corning® ENERGY STAR® labeled shingles not only perform as advertised, but also meet the criteria for ENERGY STAR® qualification.

Preferred Contractors are independent contractors and are neither affiliates nor agents of Owens Corning Roofing & Asphalt, LLC, or its affiliated companies.

†Owens Corning strives to accurately reproduce photographs of shingles. Due to manufacturing variances, the limitations of the printing process and the variations in natural lighting, actual shingle colors and granule blends may vary from the photo. The pitch of your roof can also impact how a shingle looks on your home. We suggest that you view a roofing display or several shingles to get a better idea of the color available in your area.

HOME SWEET HOME

Your home is your sanctuary. It’s the place where you go to feel safe and comfortable. Safe. Protected. But it can be much more than that. Your roof can add value by decreasing the amount of air conditioning needed to keep it comfortable. Actual savings will vary based on a number of factors including climate and insulation. For more information, call 1-800-GET-PINK® or 1-888-STAR-YES, or visit www.roofing.owenscorning.com and see actual warranty for complete details, limitations and requirements.

Don’t worry, we know that a roof replacement can be a daunting task—especially if your roof is already damaged or leaking. Since a roof plays such an important role in protecting you and your family from the elements, you realize that you can’t let the damage get out of hand. So, if you’re ready to take action, you can trust Owens Corning® to help you make the right choice the first time.

Your home is your sanctuary. It’s the place where you go to feel safe and comfortable. Safe. Protected. But it can be much more than that. Your roof can add value by decreasing the amount of air conditioning needed to keep it comfortable. Actual savings will vary based on a number of factors including climate and insulation. For more information, call 1-800-GET-PINK® or 1-888-STAR-YES, or visit www.roofing.owenscorning.com and see actual warranty for complete details, limitations and requirements.

Our product specifications are true to the energy efficient design of your roof. Owning quality products can make a difference in your home. When you know the performance capabilities of your Owens Corning® ENERGY STAR® labeled shingles, you can feel confident that they will work harder at lowering your energy costs. Owens Corning® ENERGY STAR® labeled shingles reflect solar energy, decreasing the amount of heat transferred to a room by up to 8%. This can help reduce your energy bills when installed properly. These shingles also offer energy savings, allowing the amount of heat transferred to a room to be reduced by up to 7%. As a result, an energy efficient roof can be a valuable investment.
