Above all else

Home sweet home.

It’s the place where you want to feel the most comfortable. Safe. Protected. But no matter how much you love your house, it seems the work is never completely done. And if purchasing a new roof is on your to-do list, it may seem like a daunting task.

But you don’t have to worry about it anymore. We’re here to help.

You can feel confident about choosing our roofing products—Owens Corning™ has been a recognized leader in the building materials industry for over 70 years. We’re known for making homes more comfortable, beautiful and durable. And it’s likely you’ve invited our mascot, The Pink Panther™, into your home already—our building products and famous PINK Insulation have been used in millions of homes across the country.

Owens Corning™ and your contractor can make this a positive experience—an opportunity, really. This is your chance to choose a roof that not only has outstanding performance, but also has exceptional beauty. One that can transform the look of your entire home. So for years to come, you’ll feel great every time you pull in the driveway.

Oakridge® Shingles

** ENERGY STAR® is for roofs too **

Similar to the energy-efficient appliances in your home, roofing products can provide energy-saving qualities. Owens Corning® Oakridge roofing shingles in Shasta White can help reduce your energy bills when installed properly. These shingles reflect solar energy, decreasing the amount of heat transferred to a home’s interior—and the amount of air conditioning needed to keep it comfortable.

Actual savings will vary based on geographic location and individual building characteristics. Call 1-800-GET-PINK® or 1-888-STAR-YES for more information.

The essentials for a healthy roofing system.

It takes more than just shingles to create a high-performance roof. It requires a system of products working together. Owens Corning® Roofing Essentials® Accessory Products work with our shingles to make up a roofing system that helps provide maximum durability for your roof. And the most protection for your home.

1. **VentSure® Ventilation Products.** Help protect a roof from premature failure by helping remove heat and moisture from the attic.

2. **PINK® Fiberglas® Blown-In Insulation.** Tiny air pockets trapped in the insulation resist the passage of heat and cold.

3. **Owens Corning® Hip & Ridge Shingles.** Help protect the ridge vent and add an attractive, streamlined look to a roof’s hips and ridges.

4. **Owens Corning® Shingles.** Add durable beauty to a home. Shingles are the first line of defense against the elements.

5. **Owens Corning® Underlayment Products.** Add an extra layer of protection between the shingles and the roof deck to help prevent damage from wind-driven rain.

6. **WeatherLock® Self-Sealing Ice & Water Barrier Products.** Help guard vulnerable areas where water can do the most damage to a roof: eaves, valleys, dormers and skylights.

7. **Owens Corning® Starter Shingle Products.** The first step in the proper installation of shingles.

8. **RapidFlow® Gutter Drainage Protection.** Keeps leaves and other debris from clogging gutters, while allowing water to flow freely off of the roof and through gutters.

9. **Owens Corning® Undereave Ventilation Products.** Help prevent moisture buildup in the attic by working with ridge vents to keep air moving.

Looking for more color on your roof?

Consider our Designer Colors Collection, the latest addition to our Duration® Series shingles product line. They offer the same exceptional performance—in five unique colors you won’t find elsewhere. Ask your contractor how our Designer Colors Collection can transform the look of your home.
