

QUIETZONE® NOISE CONTROL SOLUTIONS VOLUME CONTROL FOR THE HOME

QuietZone Acoustic Batts Silence Has Never Sounded So Good

Today's active families are seeking increased performance and enjoyment from their homes. Increasingly, homeowners see the value of installing *QuietZone* acoustic batts in all their interior walls, floors and ceilings. They understand that once the home is built, it is difficult and expensive to install effective noise control solutions. Give your customers the built-in peace and quiet they want. Install *QuietZone* acoustic batts around bedrooms, bathrooms, entertainment rooms, home offices and other areas where noise is created or privacy is desired.

QuietZone Acoustic Batts:

- Reduce perceived noise transmission up to 30% between interior walls*
- Increase acoustical privacy between rooms
- Allow customized noise control throughout the home
- Maintain original acoustic properties over time
- Meet all applicable building codes and standards
- From Owens Corning . . . the #1 brand of insulation

*Accepted acoustics rule is that a 10 dB increase doubles perceived sound and a 10dB decrease halves it. We have a 6 dB increase in sound reduction which equals a 30% decrease in perceived sound.

QUIETZONE® NOISE CONTROL SOLUTIONS VOLUME CONTROL FOR THE HOME

QuietZone Acoustic Batt:

- Reduce perceived noise transmission between walls, floors and ceilings
